Summary

Full-stack engineer who builds and operates customer-facing products, from React and TypeScript interfaces to PostgreSQL, integrations and deployment. Built transaction tracking for a live art release, a marketplace repricing product, and auditable signing workflows. Comfortable supporting users directly and staying with a product after launch.

Skills

- TypeScript, React and Next.js
- PostgreSQL and Webhooks
- AWS and Docker
- Customer support and troubleshooting

Professional Experience

Founder / Product Engineer / Systems Lead

Technomancy IT LLC

2015 - Present

- Own discovery, architecture, development, deployment and production support for client applications.
- Built a TypeScript/PostgreSQL support platform for tickets, billing, scheduling and client records.

Senior Systems Engineer / Datacenter Architect

Front Range Internet Inc.

2015 - 2020

- Ran hosted web services, worked hands-on in AWS, and developed in PHP and JavaScript. Worked on the billing system.
- Led NOC operations and on-call escalations; built diagnostics for operators and hosting clients.

Systems / Software Engineer

Office Evolution

2014 - 2015

- Built Node.js provisioning tools and a front-desk interface for customer network support.
- Developed internal software linking customer records, onboarding and provisioning.

Network & Systems Engineer

PlumChoice / Everon

2012 - 2014

- Supported small-business networks and endpoints, took on-call escalations and built repeatable diagnostics.

Infrastructure and Systems Focal

IBM

2010 - 2012

• Automated backups and other infrastructure work with Perl, Bash, VBA and PHP.

Selected Projects

Quadrillion Art

Client project

• Wrote a PostgreSQL connector during a live launch to track purchases, artwork delivery and payouts.

NuPrice

Long-term client product

• Built and operated a marketplace repricer, translating competitor data and customer rules into automated pricing decisions.

Proofmark

Client product

• Built signing workflows spanning React, routing, verification, PostgreSQL and webhooks.

Technomancy IT Client Operations

Own product

• Built a TypeScript and PostgreSQL platform connecting support, scheduling, billing and client records.

Education

Front Range Community College

Computer Science coursework

2011 - 2013

Certifications and Training

CompTIA A+ | CompTIA | Earned

CompTIA Network+ | CompTIA | Earned
